versus
S. M. McCall and others Non-Petitioners.**Adjudication of Final Report.**

This case coming on to be heard and it appearing to the Court that notices of this hearing have been duly given, the court considered the final report of the Board of Viewers and no objection being filed to said report. The court finds that the cost of construction is not greater than the benefit which will accrue to the lands affected, the report of the viewers as held on 20th day of March, 1916 is in all things confirmed.

It is further ordered that an election shall be held at the Court House in Hendersonville, N. C., on the 6th day of May, 1916 from the hour of 9 o'clock to 4 o'clock p. m. to vote for the drainage commissioners for the Henderson County Drainage District No. 1. Each land owner within said district shall be qualified to vote at this election and the court appoints S. M. McCall, Dr. C. Few, P. S. Ramsey, three resident land owners, judges of this election. The court will appoint three

drainage commissioners from among those receiving a majority of votes at said election and if any one or more of such proposed drainage commissioners shall not receive the vote of majority of said land owners, the court will appoint all or the remainder of those voted for in said election.

It is further ordered that a copy of this order be posted at the court house door and four conspicuous places in said drainage district and shall be published for two consecutive weeks in The French Broad Hustler prior to said election, a newspaper of general circulation throughout the county.

The court finds from the report that the cost of drainage in said district will exceed more than 25 cts per acre and that the Commissioners, when appointed and qualified, will be authorized to issue bonds to defray expenses of said drainage, etc., as provided by law.

This 15th day of April, 1916.

Hendersonville Will be Well Represented at Big Music Festival.

Many of Hendersonville's music lovers expect to take in the Spartanburg music festival this year when, it is said, Spartanburg expects to eclipse all former records. The program of five concerts presents artists of international and national fame, among whom are Miss Anna Case, reputed to be the most beautiful woman in America and a brilliant member of the Metropolitan Opera company; Mrs. Marie Tiliotson Alcock, Miss Laura Combs, Miss Tilly Koenan, John Campbell and Robert Maitland. As in former years, the New York Symphony orchestra, under the leadership of Walter Damrosch, will be a strong attraction.

The opening concert will be given Wednesday, May 17, when the Converse College Choral society will render Handel's "Messiah." The second concert will be a popular program with Mrs. Alcock as the soloist. Tuesday, May 18, Donizetti's "Lucia di Lammermoor," with Miss Anna Case as "Lucy Ashton" will be given, and on Friday afternoon Miss Laura Combs will head a symphony program. The festival will close Friday night, "Artists' Night," with Miss Tiliotson Alcock and John Campbell. Advertisers from Spartanburg are to the effect that arrangements have been made to accommodate the largest crowd in the history of the festival.

FIRE AT ROSMAN.

Brevard, April 28.—The large plant of the Rosman Tanning Extract Company came very nearly being destroyed by fire yesterday, when from some unknown source fire broke out in the "outo clave" department, and before it could be stopped had burned this part of the building, and spreading to the tank bark shed, consumed much of the bark. Fortunately, the larger part of the building in which was located the most costly machinery was saved.

BIG INCREASE IN WAGES.

Labor Department's Statement Indicates a General Gain.

The Department of Labor has issued a statement showing that manufacturing industries in the United States are expending generally from 20 to 50 per cent more for wages than they were a year ago. Much of the increase is accounted for by the additional number of men employed, but a considerable amount is credited to higher wages.

The iron and steel industries lead with a 60.3 per cent increase in the amount of wages paid and a 36 per cent increase in men employed. The car building and repairing industry is next with a 51.9 per cent wage increase and a 36 per cent increase in men employed. Cotton manufacturing is the only one of the bigger industries showing merely a nominal wage increase.

The number of men employed and wage aggregates have grown steadily month by month. From February to March last the total amount of wages in all industries increased from 1 to 7 per cent.

METHODIST IN SYMPATHY WITH THE PRESIDENT.

In His Efforts to Keep the Country From Becoming Involved in War, Voiced by Noted Bishops.

Saratoga Springs, N. Y., April 30.—Assurance that Methodists of the United States were in sympathy with President Wilson's efforts to keep the country from becoming involved in the European war, was voiced here today by Bishop Earl Cranston of Washington. Bishop Cranston, who will open the twenty-seventh general conference of the Methodist Episcopal Church here tomorrow, was addressing a preliminary service.

"I would assure the President of the United States," Bishop Cranston said, "that whatever temporary backsliding may happen when a few Methodists here or yonder may fall under the spell of a magnetic political leader, the great body of our people are in full sympathy with all of his patriotic and Christian endeavors to keep this nation out of the European embroilment."

"We Methodists do not believe that it is patriotic for a few Americans to insist upon their technical right to travel at sea in such a time as this, for personal reasons, at the risk of bringing the horrors and desolations of war upon millions of their fellow-Americans."

During his address Bishop Cranston endorsed the plan proposed for the union of the Northern and Southern branches of the Church, which is to be considered by the General Conference.

THE COST.

First Year the War Expenditures Were \$17,500,000,000; Second Year \$28,000,000,000.

(The Wall Street Journal.)

Total military expenditures of all the belligerent Nations in the first year of war was \$17,500,000,000 and in the second year to August 1, 1915, will be \$28,000,000,000 according to figures compiled in the Mechanics & Metals National Bank. For every month over which hostilities are prolonged there is expended a sum of approximately \$2,750,000,000, according to the bank, which says, "the effect of the consequent enormous demand for capital, to be consumed without economic profit, is a matter of vital concern to the American people, as well as to the people of the Nations engaged, in the present conflict."

"Not only because of its effect upon the purchasing power of Europe when peace returns is the war a matter of interest, but also because of its share in determining the price of the world's available supply of capital with command, eventually and because of its share in determining the negative

position of the world's financial markets. The war, then, is of importance to the United States, economically, for these reasons:

1. The degree of strain that it imposes upon the resources of each of the combatants. 2. The possible permanent effect upon the world's price of capital. 3. The opportunity offered for favorable investment of American capital in foreign securities. 4. The opportunity offered for widening America's influence, financially and commercially.

"If the war cost \$45,000,000,000, it will represent a sum three times greater than the entire capitalization of the railways of the United States, and four times greater than the total deposits of all our National banks. It will represent a sum six times greater than that expended in our Civil War. It will represent forty times the amount of the present National debt of the United States. 120 times the cost of the Panama Canal, 500 times the amount of the annual American gold output. Direct cost of the Franco-Prussian war, in 1870-71 was not greatly in excess of \$3,000,000,000. Direct cost of the Russo-Japanese war was \$2,500,000,000, of the South African war \$1,250,000,000.

"Advances, or loans, by the strong Powers to the weaker belligerents and to neutrals, have been well up to \$3,500,000,000. Figures from English

sources indicate that Russia has in this manner received \$1,125,000,000 Italy \$675,000,000, Belgium and Serbia \$375,000,000. Turkey and Bulgaria have received perhaps \$700,000,000. Great Britain's special loans to her allies and to neutrals will have been approximately \$2,375,000,000 by August 1, according to figures prepared in England.
